**BioMedix Announces Appointment of New CFO**  
*Dale Quam to join Executive Team*

**TWIN CITIES, MN - March 1, 2006** - BioMedix, the leader in providing integrated products, software and online services for the early detection of peripheral arterial disease today announced the appointment of Dale Quam to its management team effective immediately. Mr. Quam has over 20 years of senior level accounting, supply chain and management positions. “I am excited to join the BioMedix team and look forward to helping the company during its next stage of growth,” said Dale Quam. “I believe BioMedix is positioned to build on its successes and further leverage its PADnet as well as other product and software platform solutions.”

Quam began his career with Minnesota based companies Jostens, and Minnegasco and provided leadership in several management positions. He has since held a senior finance position with Katun Corporation. Prior to joining BioMedix, Dale served as VP of Finance and Controller, of Cannon, Inc., a \$380 million subsidiary of IMI, Inc., a UK a design engineering and manufacturing firm. “We are fortunate to have a highly skilled and accomplished executive like Dale joining our management team”, said John Romans, BioMedix President and CEO. “Dale’s depth of experience in cash management, quality control, business planning, and valuation will be important to us in this high growth phase of our business.”

Mr. Quam earned a Bachelor of Arts degree in Accounting and Economics from Hamline University and an MBA from St. Thomas University. He holds the CPIM (Certified in Production and Inventory Management) designation is a Six Sigma Yellow Belt. Six Sigma certification is based on the idea that if you can measure how many "defects" you have in a process, you can systematically figure out how to eliminate them and get as close to "zero defects" as possible. This quality program is applicable to any process improvement area.

**About BioMedix, Inc.**

*BioMedix* provides the only integrated suite of products, software and online services that make it possible to get reimbursed for Peripheral Vascular Disease diagnostic tests in both specialist and primary care practices. We merge clinical data and patient demographics to provide a more complete picture of vascular health. We help eliminate mistakes, build revenue and provide data for sound analysis.

Founded in 1997 and headquartered in Minnesota’s Medical Alley, BioMedix was chosen for the 2005 Frost and Sullivan Product Leadership Award for its PADnet Lab and well–designed product family. In October, of 2005 BioMedix was also granted the American Podiatric Medical Association’s prestigious Seal of Approval for the PADnet Lab. The Seal program recognizes products that are beneficial to foot health. For more information, logon to [www.biomedix.com](http://www.biomedix.com).
