

Announcements

Advanced Bio-Technologies, Inc. announced the national media debut of Kelo-cote[®], the nation's foremost scar treatment gel. Kelo-cote[®] is currently the most widely studied topical scar product in the world, with more than two thousand patients participating in published clinical studies. Appealing to a wide variety of consumers who are burdened with scars from injuries or surgeries, Kelo-cote[®] works on new and old scars by smoothing and fading the appearance as it helps keep abnormal scars from forming.

The Women's Center at Metroplex Hospital in Killeen, Texas, has teamed up with **Anna D. Rinehart**, CIDESCO Diplomat, Facial Aesthetics Instructor, and Texas approved CEU provider to develop a comprehensive medical aesthetics clinical skin care program for the community. This hospital-based program will include a Medical Aesthetics training program for physicians, nurses, and aestheticians.

Cristina Proano-Carrion C.H. Dip. Aroma has founded **Aromandina** with the purpose of providing high quality, therapeutic grade essential oils and aromatherapy blends designed to address health at ranges hard to reach by other means. Proano-Carrion has more than 14 years of experience formulating aromatherapy products for the spa, fitness, and hospitality industry and speaking with North and South American audiences on television and radio as well as in seminars and workshops. www.aromandina.com
